

Eurocave invented the freestanding temperature controlled wine cabinet in 1976. These outstanding units incorporate the latest technology. Consider these features:

- Exclusive electronic “Twin Process” regulates temperature
- Cabinet insulated with equivalent R-value of 2 meters of earth
- Fan assisted air circulation with an active charcoal filter
- Front vented for either freestanding or built-in applications
- “Hygro+” humidity system keep corks in perfect condition
- VES vibration technology eliminates unwanted vibration.
- A soft interior amber light
- Deluxe frameless UV glass door
- Door open and temperature alarm

More great features of the Eurocave Built-in Series:

- Available in 1 temp or multi-temp zone models
- Optional extra shelving for different bottle formats
- Available in reversible solid or UV thermal glass door
- Two-year warranty on parts and 10 year corrosion warranty
- Energy Efficient

	Model	Shelving	H x W x D	Capacity	Price*
